Lightning talk for Mapping USA 2022
Martijn van Exel

What is OSM Utah?

Local OSM events **since 2011**!

Monthly **meetups**

Collaborations with
State and Local GIS agencies

Latest news: plans to host an OSM Day at next year's Utah State GIS conference

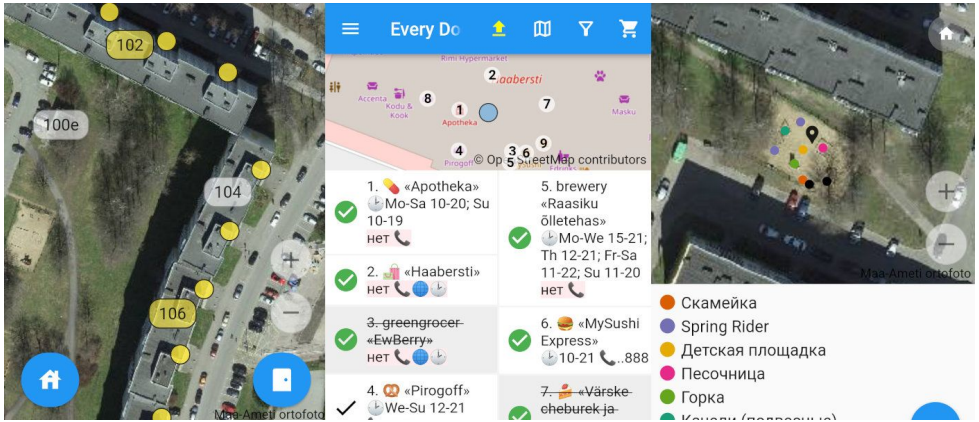
Slack #local-utah, Meetup

What is Every Door?

A new **mobile app for editing OSM** while you are out and about

It has **different modes** for businesses, addresses, and general “micromapping”.

Available for **Android and iOS**



Download on the App Store

Download from Google Play

Read / Watch:

- Introduction
- SOTM 2022 Talk

What is Micro Mapping?

Go where **NO MAP HAS GONE BEFORE**

- trees, shrubs and plants
- AED devices, fire extinguishers
- dog poop bag dispensers
- ball pits
- indoor and 3D

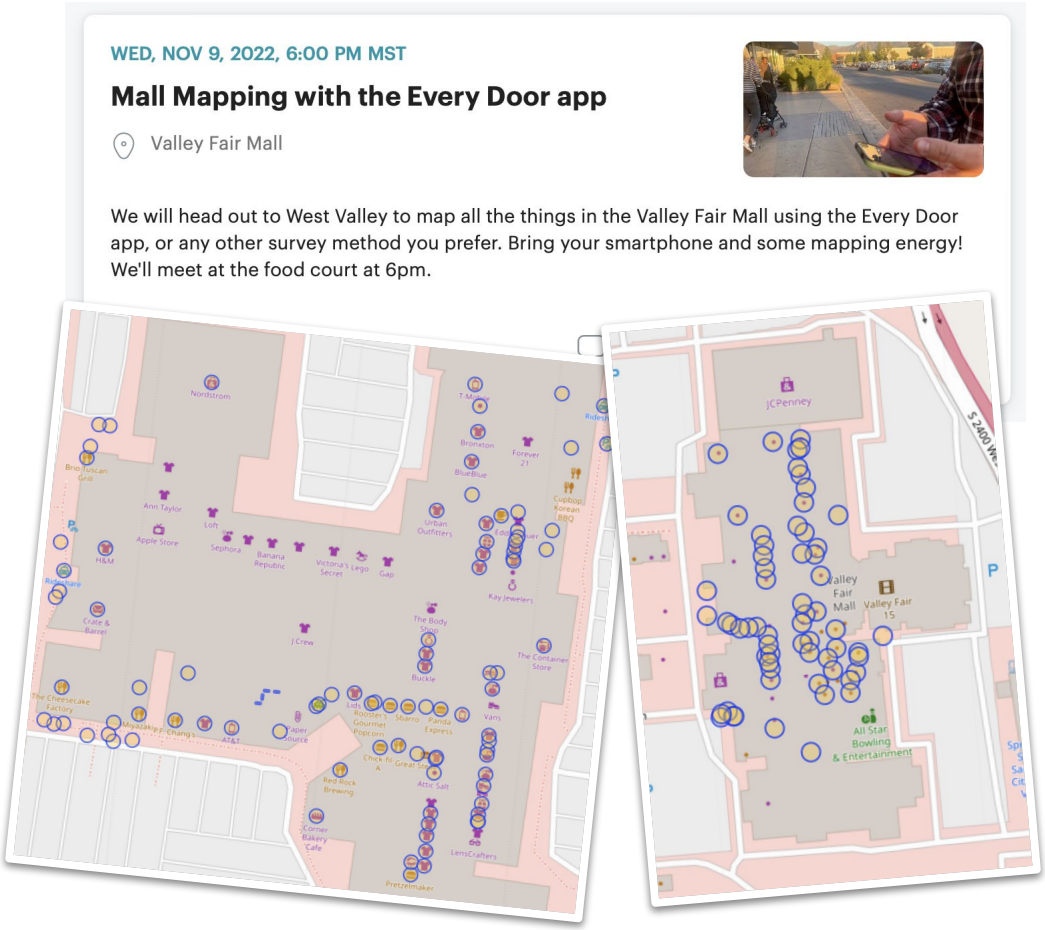
What did we do?

Two separate Mapping Parties

Two different Malls

117 POIs added / edited in Fashion Place Mall (Oct 7)

63 POIs added / edited in Valley Fair Mall (Nov 9)



Conclusions!

Overall

1. Mall Mapping = Fun and Rewarding
2. Every Door is Quirky but Great
3. A good-looking Map ≠ a Good Map
4. OSM needs eyes on the ground!

Specific

1. All of us were new to the app but were able to use it quickly!
2. Malls are tricky: poor GPS + lack of orientation, especially when there's existing, wrongly placed POI
3. Phone screen is really too small for "POI dense" environment
4. Dynamic renumbering of POI in the app can be confusing
